

# SyncMaster 570P/B/S TFT

15" (38.1 cm)  
ACTIVE-MATRIX  
LCD MONITOR

The SyncMaster 570P/B/S TFT is the ideal display for all business and professional applications. Its slim design fits on any desktop computer and it is wall-mountable to save additional space. The new "EDA" (Easy Display Adjustment) panel lets users control all display functions at a touch of a button. Samsung's TFT technology delivers screen images that are richer and brighter than traditional CRT monitors. All images are displayed in VGA, SVGA, and XGA formats. The SyncMaster 570P/B/S TFT is Plug & Play compatible and has Samsung's exclusive "Wide Viewing Angle Technology" that lets people see clear and sharp images from any angle.
